

## Employers

### **Impact of COVID-19: Financial Measures to Support Employers with Wage Costs**

Many governments have announced measures to support businesses through the effects of COVID-19. A key area of support relates to wage costs, with new systems being developed in different jurisdictions.

To help employers navigate the financial support available for wage costs, and understand how they apply in practice, this interactive publication focusses on the major measures in place to support employers with wage costs, providing an at-a-glance guide and high level summary to the key measures in the following jurisdictions:

- Brazil
- France
- Germany
- Hong Kong
- United Kingdom
- United States

As this area is subject to change, this publication is under continuous review. For further information on the implications of each measure, please contact the partners listed, or your usual Mayer Brown contact.
